

Celebrated British chef Gordon Ramsay runs an empire of Michelin-starred restaurants, has published many books, fronted internationally acclaimed television shows ... now he has created, in collaboration with Royal Doulton, a collection of tableware, knives and cookware with contemporary styling and restaurant practicality.

Very much involved in the design process Gordon had strict criteria for his ranges. They had to have striking design, be outstanding quality, well-proportioned and highly functional.

“You can only expect to create good food by using the best tools. I am pleased to introduce to you Gordon Ramsay by Royal Doulton - a collection of the highest quality.”
